PROFESSIONAL SUMMARY

Entry-level software developer with hands-on internship experience supporting internal systems for business-process automation and digitization. Familiar with C#/.NET, database integration, application testing, debugging, Git-based collaboration, and Clean Architecture principles. Seeking a junior software engineering or web development role where I can contribute to reliable business applications while continuing to strengthen my software engineering skills.

TECHNICAL SKILLS

Programming Languages: C#, Java, PHP, Python, JavaScript
Web Technologies: HTML, CSS
Frameworks & Platforms: .NET, Laravel, Expo, Flutter, MIT App Inventor
Databases: Database integration and SQL/database concepts
Tools & Practices: Git, Clean Architecture, SOLID, DRY, testing, debugging, technical documentation, workflow automation

EXPERIENCE

One CoreDev IT Inc. | System Developer Intern (OJT) | Feb 2026 – May 2026

- Contributed to internal systems supporting business-process automation and digitization.
- Worked on backend and frontend tasks, testing, and debugging for internal application modules.
- Applied Clean Architecture concepts and SOLID/DRY practices while working with C#/.NET.
- Supported database-related development and application integration tasks.
- Used Git for version control and collaborated with teammates to implement and refine system functionality.
- Prepared and maintained technical documentation as part of the development workflow.

Sangguniang Kabataan | (SK) Councilor | 2023–Present

- Serve as a youth council member, supporting youth representation and community initiatives.
- Participate in planning and coordinating youth-focused programs and community activities.

PROJECTS

Project Tracker | Developer (OJT Project) | Feb 2026 – May 2026

• Contributed to an internal project-tracking system developed to organize project information and support team workflows.
• Worked on backend and frontend tasks, as well as testing and debugging assigned functionality.
• Collaborated with a teammate and followed the company's software development workflow from development through testing and review.

AgriAssist | Developer | Jan 2025 – Apr 2026

- Developed a web-based agricultural management platform concept for monitoring and reporting activities for the Agricultural Cooperative of Lopez, Quezon.
- Worked on system features intended to improve data tracking, reporting, and agricultural activity management.
- Focused on workflow digitization, data management, and clearer reporting for intended users.

EDUCATION

Polytechnic University of the Philippines – Lopez Campus | Bachelor of Science in Information Technology
2022 – 2026

Cavinti Integrated National High School | Accountancy, Business, and Management, 2019 – 2021
